

**RULE BOOK**  
**DATA VORTEX A'26**  
**Round 3**

**Event Overview:**

- **Theme:** Rebuilding the Social Engine
- **Event Venue:** Online & Offline
- **Dates:** 20th September 2026 - 23th September 2026
- **Participation Type:** Individual as well as team(1-2 members)

### **Event Description**

Although the Social Engine can now understand the meaning and sentiment of text, it still cannot monitor what people are discussing across social media. To restore this capability, participants must collect raw social media data based on the topic assigned to the participants.

### **Round 3:**

Although semantic understanding has been restored, the Social Engine remains incapable of monitoring live events. Participants must independently collect real-time data using the topic and constraints assigned by the organising team. Data may be collected using Twitter, Reddit, news APIs, or any other available sources. Participants must apply their NLP model developed in Round 2 to analyse evolving conversations and detect behavioural shifts.

- Starting date: Day 8 (20 th September 2026)
- Deadline: Day 10 (22 September 2026, 11:59 PM)
- Submission Format: A PDF report. A Google Form link will be shared for submission.

### **Sections to Include:**

- Self-Collected Live Dataset (CSV/JSON)
- Scraping/Extraction Code (Python Script)
- Real-Time Analysis Notebook
- Round 3 Analytical Report

### **Mandatory Report Sections:**

- Data Collection Method
- Time Window
- Sentiment Analysis
- Activity Analysis
- Topic/Entity Analysis
- Trigger Explanations

### **Guidelines:**

- At least 2 sentiment shifts
- At least 1 engagement spike
- Key discussion topics/entities
- Reasons behind observed changes

### **Evaluation Criteria:**

- Data Collection Method & structure
- NLP Application
- Topic Relevance
- Visualisation & Time based Analysis
- Interpretation & Real world Understanding

### **Outcome:**

- Submissions will be evaluated by a panel of judges. Shortlisted teams will advance to Round 4.

### General Rules:

- Team size must be between 1- 2 participants.
- All submissions must be original.
- Plagiarism will result in immediate disqualification.
- Late submissions will not be accepted.
- Teams must maintain their GitHub repositories throughout the competition.
- Any attempt to manipulate evaluation results will result in immediate disqualification.
- The organising committee reserves the right to verify code, outputs, and methodologies.
- The organising team reserves the right to modify timelines under exceptional circumstances.
- All decisions made by the judging panel shall be final.
